

JOHN TARRIES IN ATLANTA.

THE STATISTICS ON GEOGRAPHY AND ASTRONOMY.

A Scotchman Over 4,000 Feet High—Rearranging People and Queer Productions A Touch Bene Story.

Correspondence of the sun.

ATLANTA, Ga., April, 1873.—Printing was discovered in 1849. If it hadn't been discovered until a year later it would have effected us materially. If it hadn't been discovered at all you would never have known it was in Atlanta, and still less so. A fellow came to town to buy a gun before he uses it twice.

The diameter of the earth is 7,920 miles, and the surface of the earth is nearly two hundred millions square miles, nearly sixty millions of itam. So you see, even allowing a few miles for shrinkage, I've got some distance to travel yet, and when I get over all the ground I have got 100,000 square miles of water to go a sailing on. The diameter of the sun, as near as can be measured at a time in question, is 832,200 miles, and THE NEW YORK SUN travels further than that every day. Give each day SUN only eight miles to go, and the diameter of the sun is least. The circumference of the earth is 25,000 miles, so you see that when I get through cutting across lots and commences to walk around the edge I will still have quite a little trip before me.

If you will only read my letters you can see the expense of going to school to study geography and arithmetic.

TOOK VENUS.

Atlanta is in De Kalb county, Ga. This country is named after De Kalb, a general. Brooklyn is 131 miles from Augusta, 93 miles from Chattanooga, 232 from Savannah, 15 from Montgomery, 104 from Tallahassee, 201 from Nashville, and 234 miles from Kansas City; this is, by "all rights," now you know where Atlanta is just as well as I do. It is a great place to live in, though it is chattered with minger in Chattanooga. He was lame. He said that the was suffering with his knee, which he had been told was bad. It was his left leg that was lame, so little Chattanooga is in Hamilton county, Tenn., 112 miles E. S. of Nashville, thanton is a good name for the place, and it is a good name for the people there, for him is the salt of the earth in that section. Hickory nuts, acorns, &c., are called "salt." All right sir, no harm done, but that mountain don't begin to be as high as old Ben Nevis.

Say he, "What how, who, who is Ben Nevis, Sir?" He's a high old fellow, Ben Nevis is, to the second power.

Say he, "What in the name of common called are you talking about, stranger? You don't want me to believe that a man was ever so foot high, do you?"

Say he, "Young man, you are a boy up to your ears in trouble, and I am a man up to my neck in trouble. He was in the ice service. He was traveling around putting up fences."

OLD BEN NEVIS.

Say he, "Stranger, that's a tall 'un." Say he, "Sir, whence this familiarity?"

Say he, "I bear pardons, I merely remarked that you were a boy up to your ears in trouble."

Say he, "All right sir, no harm done, but that mountain don't begin to be as high as old Ben Nevis."

Say he, "What how, who, who is Ben Nevis, Sir?"

He's a high old fellow, Ben Nevis is, to the second power.

Say he, "What in the name of common called are you talking about, stranger? You don't want me to believe that a man was ever so foot high, do you?"

Say he, "Young man, you are a boy up to your ears in trouble, and I am a man up to my neck in trouble. He was in the ice service. He was traveling around putting up fences."

He was in the ice service. He was traveling around putting up fences."

He was in the ice service. He was traveling around putting up fences."

He was in the ice service. He was traveling around putting up fences."

He was in the ice service. He was traveling around putting up fences."

He was in the ice service. He was traveling around putting up fences."

He was in the ice service. He was traveling around putting up fences."

He was in the ice service. He was traveling around putting up fences."

He was in the ice service. He was traveling around putting up fences."

He was in the ice service. He was traveling around putting up fences."
